Licence(s) to be varied

☒ L/2017/00012/11 (Expired Marine Licence)

What would you like to vary about your current licence(s)/response(s)?

Able UK is looking to submit a variation to MMO Licence L/2017/00012/11 to include the minor additional capital dredging quantity to be allocated under the already approved capital dredging activities. This variation entails a localised 5,000m³ capital dredge, to a depth of -14.2mCD (from 9.5mCD) in front of Able Seaton Port Quay 1.

A revised Marine Licence Schedule Document (ASC-001-00009) has been submitted alongside this application to supersede the existing drawing which shows the extent of dredging across Able Seaton Channel.

No changes to overall quantities or material splits.

Why would you like to vary your licence(s)/response(s) in this way?

The Applicant is looking to cater for an incoming vessel alongside Able Seaton Port (ASP) Quay 1 in May 2025. A Jack-up leg position is required and the capital dredge is needed in order to support this.

What date would the varied licence(s)/response(s) come into effect?

23-DEC-2024
