

RootRain Urban

Irrigation System

i Overview

The RootRain Urban is a large capacity irrigation system with a fixed grid inlet, particularly suited to open space and roadside verge tree planting in softscape. The grid allows water and air through but prevents ingress of litter and debris. The RootRain Urban is particularly suited to roadside verge and open space tree planting. The inlets are trimmer resistant and can be set below mowing machine height. They have very little vandal appeal and no theft value, making them ideal for housing estates and public areas.

📄 Features

- Large capacity 60mm irrigation system
- 100 litre per-minute capacity in porous soil
- Grid lid prevents debris and rodent ingress
- Durable recycled materials
- Includes adjustable riser
- Automatic irrigation adapter available

✓ Benefits

- Easy and quick installation
- Cost-effective on large and small schemes
- Extremely vandal resistant
- Discreet and unobtrusive appearance
- Establishes deeper rooting profile
- Increases drought tolerance & stability
- Reduces risk of surface root damage

Technical Specification

Code	Length	Diameter	Riser height	Inlet	Weight
RRURB1A	3m	60mm	300mm	80mm	1kg
RRURB2A	5m	60mm	300mm	80mm	1.4kg
RRURB3A	8m	60mm	300mm	80mm	2kg
RRURBDI3A	8m	60mm	300mm	80mm (2no per system)	2.5kg

Material

- Inlet: Heavy duty HDPE
- Pipe: polypropylene
- Tee Section: Heavy duty HDPE

Finish

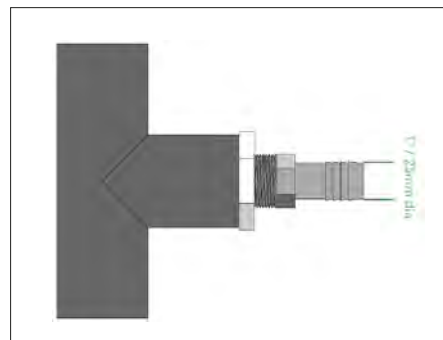

- Natural

Colour

- Pipe: Black

RootRain Auto-Irrigation Adaptor

Product code: GBUAIWAA

* Not included as standard.
